

The Extrusion Specialists Since 1981

FEATURES

- 500 Ton extrusion press
- Forged main cylinder barrel
- Front and rear platens made from steel plate
- Top loading die holder
- Container housing with heating elements
- One (1) stem
- One (1) container with liner
- Complete Rexroth hydraulic unit
- Allen Bradley motor control center with container temp control
- Allen Bradley PLC control with program and documentation
- Detailed electrical drawing
- Detailed hydraulic drawing
- Max billet size – 3.25" OD x 13" max length

MATERIALS

- Aluminum
- Silver
- Custom alloys

OPTIONS

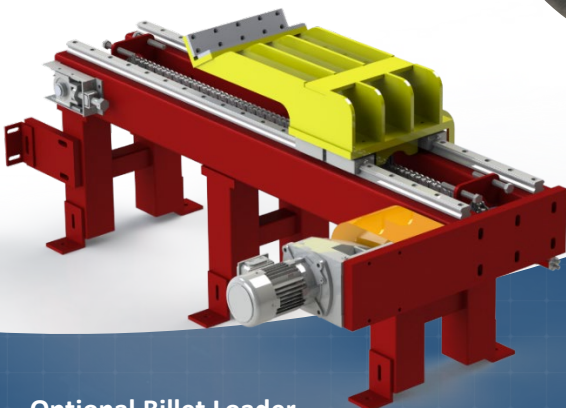

- Custom billet length over 13"
- Butt shear
- Billet loader
- Die slide
- Spare stem
- Spare container
- Spare dummy block
- Die heater box

SIZE

Press: 99" L x 40" W* X 63" H

Hydraulic unit: 103" L x 76.5" W x 71" H

* 121" Wide with optional billet loader

Optional Billet Loader
