

Field Service Technician:

*** CAREER OPPORTUNITY - Field Service Technician / Millwright ***

No experience required!

Dunaway is looking to hire both experienced and non-experienced mechanically inclined individuals for our Field Service team working in the aluminum extrusion press repair and maintenance business. When in-between field jobs, you would work in the shop to help assemble, build, and repair equipment.

Job duties:

- Assist lead technician(s) in repair and maintenance of aluminum extrusion presses and associated equipment.

Required experience:

- Must be mechanically inclined. Understand how to use basic hand tools and general understanding of how to disassemble and rebuild mechanical assemblies.

Preferred experience:

- Experience as a millwright, maintenance personnel, or similar.
- Experience with welding - primarily stick and mig.
- Experience in aluminum extrusion and maintenance of presses.

On the job training:

- While on the job, you will learn to service and maintain aluminum extrusion presses. If desired, you can learn welding, hydraulics, PLCs, controls, electrical, engineer, etc, etc.

Schedule while in the shop:

- M-F 7AM to 3:30PM

Schedule while in the field:

- Varies by job and customer requirements. Weekend work is common due to customer production schedules. Your schedule can be flexible to accommodate time off to recharge.

Travel Requirements:

- Travel is typically 4-5 days at a time. Per diem and travel expenses are covered by the company. Typical travel would be via company vehicles. On occasion, large jobs will require several weeks of travel at a time, but Dunaway will work with the team to rotate people to the field to mitigate the length of time on the road.

Pay:

- Based on experience
- Starting at \$15/hr
- Overtime while in the field is anything over 8hrs during the week, and Saturday and Sunday.

5959 LEFFINGWELL RD.
CANFIELD, OHIO 44406

About Dunaway:

Dunaway is a family-oriented company that values our employee's time both at work and at home.

For over 40 years, Dunaway has been designing, building, and upgrading extrusion presses and systems. These turnkey capabilities allow us to support our customers with any size job – from relining containers and upgrading equipment, to systems installation and redesigning entire plants.

Our in-house CNC capabilities allow us to machine to tolerances of .0005", to provide the finest quality extrusion press components. Additionally, we offer engineering, consultation, installations, and field services.

Dunaway components and systems are installed worldwide – from the U.S. and Canada to Europe and Asia-Pacific. We are the Extrusion Machinery Specialists.
